## 3SE5232-0QV40-1AA1

**Data sheet** 

product brand name

Safety position switch with separate actuator Plastic enclosure, 31 mm Device connection 1x (M20x 1.5) Slow-action contacts 2 NC/1 NO, 5 directions of approach Pull-out force 30 N, The matching separate actuator 3SE5000-0AV0. must be ordered separately

| product designation  | Mechanical safety switches  |
|--|---|
| product type designation   | 3SE5  |
| manufacturer's article number  | 3SE5000-0AV01 standard actuator, 3SE5000-0AV02 actuator with vertical fixing, 3SE5000-0AV03 actuator with transverse fixing, 3SE5000-0AV04 radius actuator, approach from left, 3SE5000-0AV05 universal actuator, 3SE5000-0AV06 radius actuator, approach from right, 3SE5000-0AV07 Heavy Duty actuator, 3SE5000-0AW42 actuator with vertical fixing, stainless steel socket, 3SE5000-0AW43 actuator with transverse fixing, stainless steel socket, 3SE5000-0AW51 stainless steel actuator, 3SE5000-0AW52 stainless steel actuator with vertical fixing, 3SE5000-0AW53 stainless steel actuator with transverse fixing, 3SE5000-0AW11 plastic actuator |
| suitability for use safety switch  | Yes   |
| General technical data   |   |
| product function positive opening  | Yes   |
| insulation voltage rated value   | 400 V   |
| degree of pollution  | class 3   |
| surge voltage resistance rated value   | 6 kV  |
| protection class IP  | IP65  |
| shock resistance     according to IEC 60068-2-27  vibration resistance         | 30g / 11 ms   |
|  | 0.25 mm/Fg  |
| according to IEC 60068-2-6  mechanical service life (operating cycles) typical | 0.35 mm/5g<br>1 000 000   |
| electrical endurance (operating cycles) at AC-15 at 230 V typical              | 100 000   |
| thermal current  | 10 A  |
| material of the enclosure of the switch head                                   | plastic   |
| reference code according to IEC 81346-2  | В   |
| continuous current of the C characteristic MCB                                 | 1 A; for a short-circuit current smaller than 400 A   |
| continuous current of the quick DIAZED fuse link                               | 10 A; for a short-circuit current smaller than 400 A  |
| continuous current of the DIAZED fuse link gG                                  | 6 A; for a short-circuit current smaller than 400 A   |
| active principle   | mechanical  |
| repeat accuracy  | 0.05 mm   |
| Substance Prohibitance (Date)  | 07/01/2006  |
| SVHC substance name  | Imidazolidin-2-thion - 96-45-7  |
| minimum actuating force in directions of actuation                             | 30 N  |
| length of the sensor   | 104 mm  |
| width of the sensor  | 31 mm   |
| Ambient conditions   |   |
| ambient temperature  |   |
| <ul> <li>during operation</li> </ul>   | -25 +85 °C  |

SIRIUS

| during storage   | -40 +90 °C                          |
|--|-------------------------------------|
| explosion protection category for dust                       | none                                |
| design of the switching contact                              | mechanical                          |
| operating frequency rated value                              | 50 60 Hz                            |
| number of NC contacts for auxiliary contacts                 | 2                                   |
| number of NO contacts for auxiliary contacts                 | 1                                   |
| operational current at AC-15                                 |                                     |
| at 24 V rated value  | 6 A                                 |
| at 120 V rated value   | 6 A                                 |
| at 240 V rated value   | 4 A                                 |
| at 400 V rated value   | 4 A                                 |
| operational current at DC-13                                 |                                     |
| at 24 V rated value  | 3 A                                 |
| at 125 V rated value   | 0.55 A                              |
| at 250 V rated value   | 0.27 A                              |
| • at 400 V rated value                                       | 0.12 A                              |
| Enclosure  |                                     |
| design of the housing  | block, narrow                       |
| material of the enclosure                                    | plastic                             |
| coating of the enclosure                                     | Other types                         |
| design of the housing according to standard                  | Yes                                 |
| Drive Head   |                                     |
| design of the actuating element                              | without                             |
| standard-compliant actuator head                             | EN 50047                            |
| design of the switching function                             | positive opening                    |
| circuit principle  | slow-action contacts                |
| number of switching contacts safety-related                  | 2                                   |
| cable entry type   | 1x (M20 x 1.5)                      |
| Installation/ mounting/ dimensions                           |                                     |
| mounting position  | any                                 |
| fastening method   | screw fixing                        |
| Connections/ Terminals                                       |                                     |
| type of electrical connection                                | screw-type terminals                |
| type of connectable conductor cross-sections                 |                                     |
| • solid  | 1x (0.5 1.5 mm²), 2x (0.5 0.75 mm²) |
| <ul> <li>finely stranded with core end processing</li> </ul> | 1x (0.5 1.5 mm²), 2x (0.5 0.75 mm²) |
| <ul> <li>for AWG cables solid</li> </ul>                     | 1x (20 16), 2x (20 18)              |
| for AWG cables stranded                                      | 1x (20 16), 2x (20 18)              |
| design of the interface for safety-related communication     | without                             |
| design of the interface for safety-related communication     |                                     |
| Communication/ Protocol                                      |                                     |
| ,  | without                             |
| Communication/ Protocol                                      | without                             |

Siemens has decided to exit the Russian market (see here). https://press.siemens.com/global/en/pressrelease/siemens-wind-down-russian-business

Siemens is working on the renewal of the current EAC certificates.

Please contact your local Siemens office on the status of validity of the EAC certification if you intend to import or offer to supply these products to an EAC relevant market (other than the sanctioned EAEU member states Russia or Belarus).
