- For flexible and solid conductors with PVC insulation
- Stripping length adjustable via end stop
- Automatic opening of clamping jaws after stripping
- No splicing of single conductors
- Adjustable for different insulation thicknesses
- Cable with double insulation in two processing steps without special adjustment
- No play in self-adjusting cutting unit
- Long-lasting
- Optimised ergonomic design

General ordering data

Order No.	9005610000
Type	STRIPAX 16
Version	Tool accessorie, Stripping and cutting tool, Flexible and solid conductors with PVC insulation, 16 mm ² , 25 mm
GTIN (EAN)	4008190183875
Qty.	1 pc(s).

Technical data

Dimensions

Length	190 mm	Weight	175 g
--------	--------	--------	-------

Max. cutting performance

Conductor cross-section (cutting capacity)	6 mm ²
--------------------------------------------	-------------------

Max. insulation stripping performance

Cable type	Flexible and solid conductors with PVC insulation	Conductor cross-section, min.	6 mm ²
Conductor cross-section, max.	16 mm ²	Stripping length, max.	25 mm

Classifications

Product information

Note, technical data

Because of the vast quantity of different insulation materials available, tool results may vary according to the chemical composition, material hardness, temperature or humidity. For this reason, Weidmüller cannot guarantee a trouble-free stripping process in all customer applications. These factors apply in particular to non-harmonized AWG wires. Therefore the customer is responsible for selecting the proper tool and for carrying out performance tests for specific applications. Weidmüller would be happy to provide support and advice to help you with these decisions.

Description of article	Stripping tool up to 16mm ²
Product description	<ul style="list-style-type: none"> • Stripping: PVC-insulated flexible and solid conductors, from 6...16 mm² (~AWG 10... 6) • Cutting: PVC insulated flexible and solid conductors, up to 6 mm² (AWG 10) • No damaging of the conductor due to special blade forms
