

# PACSystems™ RXi2-BP Industrial PC

## The Next Generation of Powerful, Reliable, Ruggedized Computing

### Introduction

Emerson has developed the next generation of its powerful, expandable, and reliable industrial computers (IPC).

PACSystems RXi2 IPCs offer new processor choices, increased and faster storage, improved graphics, and enhanced security features.

The PACSystems RXi2-BP IPC delivers compact, rugged, mid to high range performance to run HMI, historian, and analytics applications right at the machine, enabling improved real-time control of operations and better integration into plant-wide systems.

Combining outstanding compute capabilities with a compact and robust enclosure, the PACSystems RXi2-BP is ideal for a range of demanding Industrial applications.

### High-Performance Computing

Emerson uses AMD Ryzen™ Embedded series processors based on their unmatched performance. The PACSystems RXi2-BP IPC has up to 16GB of ECC RAM, four Gigabit Ethernet interfaces, and industrial grade high-speed SSD disc storage to complete the high-performance design.

These features make the PACSystems RXi2-BP IPC the perfect platform for running industrial applications right at the machine, even in the harshest environments.

The PACSystems RXi2-BP design features 1 PCIe slot expandability. This functionality combined with advanced CPUs allows for flexible, high-performance computing. To help keep data and operations secure, the PACSystems RXi2-BP utilizes Trusted Platform Module (TPM) and Microsoft Secure Boot technology.

### Pre-Loaded Edge Analytics and SCADA

Do more at the edge with the PACSystems RXi2-BP optionally pre-loaded with Emerson's PACEdge™ or Movicon.NEXt HMI/SCADA software. This industrial PC delivers a powerful and tightly integrated solution with reliable, industrial computing and innovative, scalable and flexible automation software.

Based on OPC UA, Movicon.NEXt is the first integrated automation software platform for connectivity, IIoT, machine HMI, HMI/SCADA and plant analytics.

Movicon.NEXt enables connectivity to many native and integrated communication protocols. It provides enhanced visualization tools, including WPF, XAML and 3D graphics, and also enables data recording independent of data format used. With Movicon.NEXt, users also get integrated scripting, an alarm management system, and analytics capable of acquiring production data in real time. These analytics provide KPI and OEE performance data, calculate machine downtime and can be used in tracking and scheduling production.

PACEdge is a singular, secure, and controlled environment for users to begin their Digital Transformation. Edge processing maximizes the value of your data so you can generate real insights and improve your operation's reliability, safety, and energy optimization. PACEdge provides the foundation for these improvements by delivering all aspects of edge processing with simplified IIoT application development, deployment, and administration. All components necessary in the IIoT application life cycle are brought together in this single package to provide a unified and secure interface to decrease your development time and increase your deployable footprint.

## Greater Uptime

All aspects of the PACSystems RXi2-BP IPC have been engineered for reliability in harsh environments. With high quality industrial components, a rugged design, and fanless operation, it is perfect for both commercial and Industrial applications. The PACSystems RXi2-BP IPC is a highly reliable IPC with a long life cycle.

The foundation of the PACSystems RXi2-BP IPC architecture is Emerson’s rugged COM Express modular CPU platform. Emerson also incorporates patented thermal monitoring technology with sophisticated passive cooling techniques to provide the highest-performance, fanless industrial computing platform that can operate in extended temperature ranges.

## Enhanced Productivity & Lower Total Cost of Ownership (TCO)

The foundation of the PACSystems RXi2-BP IPC combines high performance with reliability, enhancing productivity and reducing cost of ownership. The PACSystems RXi2-BP IPC delivers low TCO through features such as compact size, reduced maintenance, low power consumption, and ease of future performance upgrades enabled by our innovative rugged COM Express CPU architecture.

Feature	Benefit
AMD Ryzen™ Embedded V1000 and R1000 Series CPUs	High-performance AMD chip with an industrial temperature version. Coupled with our patented cooling technology, our performance is best-in-class.
Fanless operation	A robust, reliable solution with no moving parts and minimized dust contamination.
4 Gigabit Ethernet ports (three with Time SYNC IEEE1588 and 802.1AS, one DASH enabled port)	Network implementation flexibility. Multiple high-speed Ethernet links for communication-centric applications with support for deterministic transfer of data/commands.
Small Form Factor	Mounting options provide flexibility for where the IPC can be installed. DIN Rail or Book Shelf Mounting available.

## Specifications

Processor	
AMD Ryzen™ Embedded V1000 and R1000 Series	V1605B, 12-25W, 4c 2.0GHz (3.6GHz), Vega 8 graphics
	V1404I, 12-25W, 4c 2.0GHz (3.6GHz), Vega 8 graphics
	R1505G, 12-25W, 2c 2.4GHz (3.3GHz), Vega 3 graphics
	R1305G, 8-10W, 2c 1.5GHz (2.8GHz), Vega 3 graphics
Memory	
	Up to 16GB DDR4-2400
	Soldered, with ECC
Storage Interfaces	
	Primary storage device – M.2 SATA 6 gigabit/s
	Micro-SD slot, user accessible, supports OS boot, hot plug
Ethernet <sup>1</sup>	
	Four 10/100/1000BASE-T Ethernet ports
	Option to enable DASH remote management functionality on one port

Wireless Communication <sup>1</sup>			
	User-installed WiFi/BlueTooth wireless connectivity through PCIe slot <sup>4</sup>		
Graphics Interface			
	DisplayPort++ HBR3 support (4 independent displays)		
USB Interface			
	Two USB 3.1 Gen 1		
	Two USB 2.0		
Serial Communications			
	One RS-232		
	One galvanically isolated RS422/485		
Expansion			
	1 PCIe expansion slot (optional)		
LED			
	One green color user defined LED		
Others			
	Timers: Legacy PC-AT, Local APIC, HPET		
	OS and application watchdog timers		
	Thermal monitoring		
	RTC with Lithium coin cell battery		
Power			
	Input: 24V DC (±25%) with surge protection, maximum current 2.4A		
Environmental			
Thermal performance is highly dependent on end application workload, pre-configured processor TDP value, installed expansion cards, IPC mounting orientation etc., Please consult Hardware Reference Manual for details and recommendations.	Range	Operating <sup>2,3</sup>	Storage
	Standard	0°C up to +70°C	-40°C up to +85°C
	Extended	-40°C up to +70°C	-40°C up to +85°C
	Humidity	5-95% @ +40°C	5-95% @ +40°C
	Altitude	6,600 ft. (2.0km)	40000 ft. (12 km)
Firmware			
	UEFI AMI Aptio <sup>®</sup> 5		
Dimensions (H x W x D)			
Base unit without PCIe expansion slot	158 x 191 x 44.5 mm, Weight: 1.45kg		
Unit with 1 PCIe expansion slot	158 x 191 x 81.8 mm, Weight: 1.73kg		
Mechanical			
	Rugged aluminum and stainless-steel housing for optimal thermal management and durability		
	IP20 – Protection against particles		

Software Support	
	Windows® 10 IoT 2019 LTSC
	Linux Ubuntu 18.04, 20.04, and above (not pre-loaded except when buying PACEdge option)
	VxWorks® 7.0 (not pre-loaded)
	Movicon.NEXt 4.1 and above (pre-loaded options available)
	Pro.Lean (pre-loaded options available)
	PACEdge with Optional Movicon Connex & WebHMI (pre-loaded options available)
Safety & EMC	
	IEC/UL62368
	CE, FCC
	<ul style="list-style-type: none"> <li>■ UL Listed US/CAN Hazardous Locations: Class 1 Division 2 Groups ABCD</li> <li>■ ATEX Zone 2</li> </ul>
Mounting Options	
	Slim (Book)
	DIN Rail (kit: R2B00ACCRM01)
	Panel Mount (kit for unit without PCIe expansion slot: R2B00ACCMP01, kit for unit with 1 PCIe expansion slot: R2B00ACCMP02)

<sup>1</sup> Additional features may be added by customization, please contact your regional sales representative to inquire.  
<sup>2</sup> At 100% CPU load temperature range requires vertical orientation of the heat sink fins at free convection.  
<sup>3</sup> Operating temperature is dependent on the CPU and SSD choice, application software, orientation of the heat sink fins at free convection.  
 For detailed recommendations please refer to Hardware Reference Manual or contact support team.  
<sup>4</sup> This unit is certified with 1 empty PCIe slot. Certain add-on cards may require additional certification of the complete unit, by user, after installation.

## Ordering Information

Part Number	Description	Operating Temperature
R2B0N9N4N3A0A	RXi2-BP Industrial PC: AMD R1305G 1.5GHz, 4GB RAM, 64GB SSD, no OS	0° C up to 70° C
R2B0N9A4N3A0A	RXi2-BP Industrial PC: AMD R1305G 1.5GHz, 4GB RAM, 64GB SSD, Windows 10 IoT	0° C up to 70° C
